

## Best Practice – I

### Additional information: Soft Skills and Personality Development Program among students (SSPDP)

Most of the students have a vernacular background. They have come from villages & other states. Besides communication problems, the syllabus understanding & facing exams (oral & written) in English is a big challenge for them. Many of the students may not have basic concepts of the subjects as they were not taught about the importance of basic concepts at Intermediate level. Students are also not aware of the skills which are required for employability in the industry.

### Aptitude Test Series

Training and Placement Cell of RCPIMRD conducted aptitude series for MCA 3<sup>rd</sup> year and IMCA 5<sup>th</sup> year students. This aptitude series was started from the month of June 2019. The main motive of Training and Placement Department at RCPIMRD is to provide the right platform to the students passing out of the Institute, so that they are able to make a solid foundation for a prosperous career lying ahead. Career aptitude tests is a great resource, as this provides the students with essential information concerning their respective abilities and inclinations; indeed, the test show the particular lines of work that match well with a student's skills, aims and lifestyle.

Various topics were covered in this series like problem on train, time and work, problem on ages, ratio proportion, height and distance, HCF and LCM etc. Many test on technical skills were conducted like, C++, java, .Net, DBMS etc. Even students conducted few seminars on the topic and shared their knowledge with others. This was great activity by training and placement department through which students were able to enhance their problem solving abilities and improve their technical skills.

Presentation on Etiquettes and manners imparts basic value on behaviour in students in & outside campus also. There are various incidences where students have returned valuables or money to the office. Thus in real life also students learn the real human values. Communication skills and personality development activities are making the basic English & overall personality aspects to be strong amongst all. Motivational, confidence building, Social Awareness Videos etc. are shown to students which make them confident to face the outside environment with a new zeal. It boosts their energy levels. Social awareness problems have made students to contribute in the huge numbers in the recently organized event, students voluntarily & actively participated in the event for a social cause. Problem solving activities, team building, event management, time & stress management are conducted during induction to make the students understand the importance of the soft skills as well as their career objectives clearly. Institute passed out students are successfully holding managerial positions in the industry. Though we are new in the industry we promise to supply quality products to society which are valuable assets for us too. Alumni interaction is organized to bridge gap between present student and past students. Institute organizes such event, in this event we communicate not only with technical skills but also answer the current student's queries. Institute arranges Induction programme to have a friendly relationship atmosphere among the new entrants & seniors. There is a tradition of 'tilak welcome' to the first year students & this act has real time effects on maintaining mutual helping nature. They feel comfortable in sharing their initial issues & this helps in preventing ragging incidents in the campus. There has not been a single incident till date of ragging as the budding education is imparted in them during such activities. From the first day in the institute the new students feels as if he is already a part of IMRD & its rich culture. He develops a special bonding that prevents him or her from dropping out of the institute. Hence the dropout rate is zero. There has been more number of girls than boys in the courses across under graduate & post graduate. The reason is quite obvious that this place is quite safe for the women due to presence of various activities on ethics & moral values during the induction program. Parents do visit the institute, teachers & express the gratitude. Finally it can be concluded with

a note that all students follow strictly the code of conduct taught to them during all these Induction process. All the above activities & life time success of IMRD alumni is only because of its Induction program.
