Mr. Manveen Singh Chadha explained presentation on Entrepreneurship as a Career choice in which he expressed about the Entrepreneur, difference between Wage Employment and Self employment and innovative products. Keep looking for alternative revenue; every customer is important for entrepreneur.

Mr. Nikhil Kulkarni Sir expressed his views that everyone is a premature baby who having innovative ideas for that KCIIL is there to support them. And also expressed about the linkages, structure of kciil and support from kciil to us.

Vote of thanks delivered by Mr. Kaustubha Sawant.

Concluding Remark: -

Entrepreneurship is all about the propensity to take risks, plan, organize, streamline and manage a new business idea in a dynamic global marketplace. Entrepreneurship is marked by job creation rather than job seeking. Entrepreneurs are independent-minded, innovative people. Who are on a quest to create unique products and services? Entrepreneurship might be difficult, but it is a rewarding journey.

Activity Name: Webinar on Career Katta and Entrepreneurship Development

Date: 13th December, 2021

Place: Youtube Live Channel

Resource Person:

- 1) Mr. Dinesh Khedkar
- 2) Dr. Pramod Lakhe

Objective:

- 1) To explore career opportunities as being Entrepreneur.
- 2) To emphasize on improving our ideation process and elevates the creative thinking of individuals.

Number of Participants: 607

Events Highlights

The Entrepreneurship Development and IQAC of R.C.Patel Institute of Management and Research and Development, Shirpur is an associate with Maharashtra Information Technology Support Center (UvaJagar Abhiyan – Youtube Channel) organized a webinar on Career Katta and Entrepreneurship Development on 13th December, 2021

The webinar is based on the career opportunities as being Entrepreneur in which resource person explained various key highlights like-

- It is a process of using private initiative to transform a business concept into a new venture or to grow and diversify an existing venture or enterprise with high growth potential. Entrepreneurs identify an innovation to seize an opportunity, mobilize money and management skills, and take calculated risks to open markets for new products, processes and services.
- Firstly, a goal is defined to understand what the main purpose of brainstorming is. Once we have an end-goal to achieve or a problem to solve, various challenges that come along are explored. Furthermore, different aspects of the problem or situation are explored and we list down ways to overcome the challenges. There is no structure in brainstorming, and no idea is considered wrong. All ideas are noted

during the brainstorming sessions, and some can even be clubbed together. Provides suitable examples with the brainstorming like OLA Cabs, E-bikes etc

Concluding Remark: Participants were highly satisfied and motivated. The session was insightful for the students to explore entrepreneurial opportunities .

Activity Name: - Webinar on "Entrepreneurship as a career choice".

Date: - 14th October 2021

Place: - Zoom meeting

Resource Person: - Mr. Manveen singh Chadda.

- Chief Executive Officer, KCIIIL
- Former Incubation Manager, IIT Mandi Catalyst, Mandi
- Mentor-Startup India

Objectives: - To motivate the students to be an entrepreneur as a career choice.

Number of Participants: - 364

Events Highlights: - The Entrepreneurship Development cell and IQAC of R. C. Patel Institute of Management Research and Development, Shirpur is an associate with KIEDC, Jalgaon organized a Webinar on "Entrepreneurship as a career choice." on 14th October 2021. In this webinar we are invited to Mr. Manveen Sigh Chadda. Entrepreneurship is an activity that helps in sensing the opportunities, resourcing innovation and realizing the payoff through the actions performed by him or her. During this process the individual scans an environment for opportunities, identifies them, examines the feasibility of converting or changing that opportunity into a possible enterprise for production, draft plan of action and then engages oneself in such activities that would cause the merchandise.

Concluding Remark: -

It is useful to break the entrepreneurial process into five phases: idea generation, opportunity evaluation, planning, company formation/launch and growth. This session is helpful to think of the evaluation step as continually asking the question of whether the opportunity is worth investing in. You are actually constructing and then continually revising an "investment prospectus."

Resource Person: - Dr. Vikas V. Gite.

- Director, KCIL.
- Mentor-Startup India.
- Head-Department of Polymer Chemistry, School of Chemical Sciences, KBCNMU, Jalgaon.

Objectives: -

The main objective of this webinar is to know about intellectual properties. While most of us have the talent and desire to begin something new, it needs to be understood that successful entrepreneurship is not just about pursuing novelty. It is about ideation that helps solve a pertinent issue and has a market and a customer - the potential to be sold for profit. If you have plans for joining the start-up ecosystem, perhaps you should ponder over these questions, first: Do you have a unique idea/concept for starting up? Will you be able to develop a 'people and product' network to facilitate your business objectives?

Have you developed clear and defined processes that encompass the development, promotion and delivery of the product or service?

Have you provisioned for funds sufficient enough for your idea to take off and ensure business sustainability until revenue generation?

Number of Participants: - 270

Events Highlights: - The Entrepreneurship Development and IQAC of R. C. Patel Institute of Management Research and Development, Shirpur is an associate with KIEDC, Jalgaon organized a Webinar on “Essentials of IPR in Innovation management.” for all Classes on 13th October 2021. In this webinar we are invited Dr. Vikas V. Gite.

Dr. Gite sir explained about if you have answered more than one of the above in the affirmative, this could mean you are on the right path to start your entrepreneur journey.

Being an entrepreneur teaches life skills, generates creativity and problem-solving skills, provides a better understanding of markets and economics, and enhances teamwork, communication and networking and brings about a never-say-die attitude. Failing at entrepreneurship is a learning experience in itself. It will not be apt to think that every entrepreneur gets rich although if one learns to persevere and counter failure, entrepreneurship could be the gateway to limitless earning potential.

Concluding Remark: -

The entrepreneurial skill set that one develops isn't only limited to business but entrepreneurial skills are transferable to almost all spheres of life and careers. Entrepreneurs become adept at like-skills like time management, delegation, perseverance, critical analysis and much more.
